Any additions and alterations will have to be notified promptly to the said Rationing Officer at the end of each month. A similar register must be maintained separately for the temporary manual labourers who continuously do heavy work for more than 50 per cent of the working days in a ration period.

Supplementary rations are distributed on the same lines as the basic rations. A separate register should, however, be maintained showing the sales with reference to the heavy manual labourers' register.

All applications for the enhanced scale of rations should ordinarily come through the employer of labour and in the case of casual labour, applications will be entertained by the Rationing Officer concerned, on satisfactory evidence being furnished on the nature of work done and the period of such work.

Notification dated 4th July 1945.

No. P. C. 1. The following orders issued by Government from time to time *re.* the economical use of the Stationery, Forms and Paper are published for the information of the Officers concerned as approved by Government in their Order No. M. 10398—P. & S. 17-44-16, dated 16th May 1945.

No. M. 2500-68—*P. & S.* 90-43-44, *dated* 22*nd September* 1944.

Official Memorandum.

In view of the prevailing high prices of Paper and Stationery articles and the difficulty in obtaining supplies due to the present international situation, it has become imperative that utmost economy should be observed in the use of Stationery. Instructions have been issued from time to time in the matter of economising the use of these articles. Government, however, consider that there is still avoidable wastage of paper and that

this is largely due to adequate attention not being paid to this matter by the heads of offices. In view of the seriousness of the position, the Heads of Departments and other officers are once again requested to bestow their personal attention to this important matter and to effect the utmost economy in the use of paper and other stationery articles, avoiding sending supplementary indents as far as possible.

Government direct that the following instructions be adopted to further economise the use of paper and stationery articles.

1. *Duplicating.*—(*a*) An economy in both paper and effort can be made in many cases by delaying the circulation of non-urgent material until it can be used to fill up space on the urgent circular.

(*b*) Departments and offices must reduce the number of "duplicated copies of instructions to the smallest possible quantities by instituting systems whereby each administrative unit shall receive one copy only and circulate it, rather than sections of that unit each receiving a copy. There must be no reduplicating of duplicated or printed matter.

(*c*) Stencils should be cut in the smallest type possible. The most economical size is the Elite type (12 letters to the inch). In offices wheret ypewriters with this type are available and the volume of duplicating work is considerable, such machinse should be set apart, as far as possible, for cutting stencils.

(*d*) It should be noted that where tabulated matter in single line spacing throughout would be difficult to read, the introduction of blank line space at regular intervals (say, after every fifth line) will be of great assistance. This style has practical advantages over unrelieved double-line spacing.

(*e*) Departments and offices in possession of duplicators should not allow operators to have uncontrolled access to stocks of paper. Paper should be issued for each separate job with the due allowance for spoils not exceeding two per cent of copies duplicated or one sheet of paper per stencil. Spoiled sheets of absorbent or semi-absorbent duplicating paper should be used for testing inking at the commencement of runs. Such sheets may for that purpose be used several times and they may also be used for blotting-off stencils prior to storage.

2. *Correspondence.*—(*a*) For use in the case of short letter, *e.g.*, in F8 cap 8 vo ($6\frac{3}{4}'' \times 4\frac{1}{2}''$) departments and offices should consider horizontal typing. This has advantages from the typing standpoint, makes far easier reading and if the printed or typed heading is arranged on not more than two lines, is at least as economical as the more usual vertical form.

(*b*) Dispense with covering letters for remittances, etc., where the contents explain themselves.

(*c*) The following further measures are recommended for general adoption :—

(i) The use of spare space on office memoranda and circulars to emphasize economy instructions.

(ii) Endorsing "See Paper Economy Instructions" on documents which do not observe these instructions so that others using the file would notice the comment.

3. *Acknowledgments.*—The routine acknowledgments of incoming letters etc., should in general be confined to communications containing valuable documents (*e.g.*, deeds, agreements, etc.,) or statutory or other notices, the receipt of which it is necessary for the sender to establish. Important letters replies to which are likely to be delayed, should be acknowledged only on instructions from officers concerned.

4. *Submission of Reports.*—It is often possible to extend the period of submission of periodical returns, *e.g.*, daily into weekly or monthly into quarterly returns. This should be investigated and acted upon wherever possible.

5. *Misdirected letters.*—Some offices ask the writer to communicate again with the proper department of office. Time and paper are saved by passing on such letters.

6. *Envelopes.*—All incomming envelopes received without economy labels must be opened carefully by slitting along an edge. For re-use, an economy label should be pasted over the old address and turned over, the open edge of the envelope being gummed down.

7. *Babul and Cactus thorns.*—These may be used conveniently by all offices instead of pins. The thorns may be purchased locally, if available. Cactus thorns may also be purchased from the Dewan, Puddukotta State, Madras at annas eight per thousand.

8. *Pencils.*—Pencils should be mended carefully by means of a knife. Pencil sharpening machines cause unnecessary wastage. A sharp point is wasteful and generally unnecessary, the lead should, therefore, be cut as little as possible to show a minimum usable amount of lead only.

9. *Salvaging usable articles from files to be recorded.*—When files, proceedings, etc., are being recorded, care should be taken to salvage taga, pins, flaps, etc., and to return them to the stationery clerk for re-issue.

10. *Anticipating additional demands for paper or printing.*—It has been brought to the notice of Government that several newly created offices in the State indent for the supply of stationery articles disproportionate to their requirements without obtaining sanction of Government in the first instance. The Secretary to Government, Education Department, may be consulted by the Secretaries to Government (in other departments of Government) conveying sanction to the formation of new offices, at as early a stage as possible, before sending indents to the Superintendent, Government Stationery so that such preliminary planning as can be done may be arranged.

II. Use of cut sheets of Corbon and Typing paper.

It is reported that typewriting carbon paper and typewriting paper are being supplied to offices by the Superintendent, Government Stationery in Foolscap Folio size and that the demand for these papers is also considerably on the increase. To minimise wastage in this direction departments and offices should see that some quantity of typing paper and carbon paper is supplied to their typing branches in half and quarter sizes at all times. Each typist should have with him at least two half and two quarter sheets of ordinary carbon paper.

12. As regards the use of note sheets, reference is invited to instructions issued in the matter in G. O. No. A. F. 2856-933—P. & S. 54-42-2, dated the 24th November 1942, which should be followed strictly.

Order No. A. F. 5330-5405—*P. & S.* 109-41-8, *dated Bangalore, the* 28*th March* 1942.

In view of the abnormal rise in prices of Paper and Stationery articles and of the difficulty in obtaining supplies due to the present international conditions, Government have examined the question of minimising the consumption of paper, etc., to the largest extent practicable in all offices and have also considered the views of the Superintendent, Government Printing, and the Superintendent, Government Stationery in this behalf. and are pleased to issue the following instructions in continuation of the previous orders in the matter for strict guidance in all offices :—

A. Economy in the Use of Paper and Stationery Articles.

1. Heads of offices should exercise the strictest economy and great discretion in the use of different qualities of paper by the various classes of officers and officials and in the selection of paper for writing according to the importance of the subject-matter. Every available stock of paper in the different offices of the State should be carefully conserved and profitably utilised.

2. Both sides of paper should be used to write upon, in all offices, in all classes and for all communications. This should be insisted upon and stringent measures adopted to stop all wasteful use.

3. Envelopes should be fastened by pasting a slip over the flap without the flap itself being gummed, and the address and other details written or printed on this slip. The addressee will, in opening the envelopes, merely cut across the slip *without injuring* the flap, so that the envelopes can be used again by pasting on it another similar slip.

4. In the case of envelopes transmitted by post, the flap should contain instructions to the Post Office to impress its stamp on the slip only, even in the cases of envelopes on which the names of addressees have already been printed. Envelopes should be collected and returned to the office of issue after taking the contents so that the covers may be used again by pasting small slips to the cut end.

5. Wherever practicable, combined letter envelopes should be brought into use and the use of separate envelopes dispensed with.

6. The Superintendent, Government Printing, will print slips to suit the several sizes of envelopes and supply them to several offices together with the combined letter envelopes.

7. The supply of envelopes to the Departments will be reduced by 30 per cent as the general observance of the above instructions is expected to result in a considerable saving in envelopes.

8. Half the quantity of writing paper for office use will be supplied in draft Creamlaid paper 10 lb. and the other half in badami foolscap 10 lb.

9. Supply of Azurelaid paper will be discontinued, Creamlaid foolscap paper 14 lb. being supplied in lieu thereof, to Courts, the Police Department, the Department of Public Works and Treasury Offices.

10. All letter heads except those of the Secretaries to Government will be printed on Creamlaid Foolscap Paper 10 lb. only, the use of Azurelaid or Typewriting Thick Paper being dispensed with.

11. The supply of essential Stationery articles (as classified in Government Order No. G. 8066-9018—P. & S. 48-34-3, dated 5th April 1935) and of writing and other kinds of papers to offices from the Stationery Depot will be reduced by 30 per cent of the quantities provided in the Stan ing Lists.

12. Supply of Stationery articles such as Blotting Paper, Steel Nibs, Pencils, Ink Powders, Rubber, etc., which are issued according to a fixed scale will be limited to 70 per cent of the prescribed scale in future.

13. Supply of costly periodical articles such as green-baize and paper weights will be deferred.

B. Economy in the Use of Forms and Registers.

1. The Heads of Departments and all other indenting officers will exercise the utmost economy in the use of forms and registers and return all unnecessary stock of forms and registers to the Superintendent, Government Printing, who will supply them to such other offices as are in need of them. They are also requested to claim only the minimum quantities of forms and registers in future and to maintain proper accounts of the forms and registers received and used in each office.

2. The Heads of Departments are requested to examine carefully works such as the printing of administration reports of departments, returns to the Comptroller, manuals and other miscellaneous works sent from their departments to the Press and see that the Printing work is reduced to a minimum.

3. The Heads of Departments and Deputy Commissioners are further requested to co-operate in this behalf and issue such subsidiary instructions to their subordinate offices as may be necessary to achieve the end in view. A report of action taken in this connection may be sent for the information of Government before 1st May 1942.

K. RAMA ASTRI, For *Dev. Secy.*

No. M. 6485-560—*P.* & S. 4 -1, *dated 17th January* 19

Official Memorandum

In view of the extreme necessity for economising the use of paper the Heads of Departments and Officers are once again requested to bestow their personal attention to measures of Economy in the consumption of paper and other Stationery articles, and to take suitable notice of such of their subordinates and clerks as are guilty of wasteful practices in violation of the rules issued from time to time in this behalf.

2. Government also direct that the following further instructions be adopted for economising the use of paper and other Stationery articles :—

1. *Economy slips.*—(*a*) Instructions regarding the use of economy slips should be brought home adequately to the persons who really handle these labels, *viz.*, the peons and dafterbands who actually fasten and seal envelopes in the Despatch Sections. It should be the duty of the Despatcher to explain the instructions carefully to the inferior staff who handle the Dak and to make sure that they have understood the instructions. The Despatcher should further examine all envelopes just before they go out to see that they have been fastened or sealed correctly.

(*b*) The mail (tappal) should be opened in the presence of a senior responsible officer preferably a gazetted one. He should see that all the envelopes fit to be re-used are collected and received by the Despatcher. The latter should take proper care of the used envelopes and he should be held responsible for using all of them again before going in for new ones.

2. Azurelaid note sheets are still being used extensively in several departments in preference to the cheaper semi-bleached routine note sheets. This should be avoided. Ordinary white printing 16 lbs. foolscap or halved into quarto should be used for D. O. Note papers.

The habit of pasting on foolscap-folio size correspondence on smaller sized paper should be discontinued.

Gum should not be used for closing gummed envelopes.

The contents of waste paper baskets should be collected and arranged to be despatched to the Mysore Paper Mills, Ltd., Bhadravati, if required.

3. (*a*) Besides obsolete papers, there is usually in every office, variety of otherwise waste paper which can also be used for drafts, for rough calculations, etc., *e.g.*, old statements, chellans, tenders, registers which are only partially consumed, unwanted notes, reports or 'spare copies' printed or typed on one side.

(*b*) Paper of this description is often discarded as waste. It is requested that nothing should be discarded unless it is absolutely unfit for use.

(*c*) It often happens that papers are stored in out of the way places and lost sight of unless specially unearthed. A careful search should be made in all stores and bundle rooms.

4. In offices wherein a separate typing section exists and where there is adequate staff, typing work may be divided if found necessary and worked into two batches with separate sets of working hours, thus forming what might be termed a 'Double Shift' arrangement. If this is done, half the number of machines normally required would serve the purpose.

5. *Use of slates for rough work.*—An appreciable quantity of paper is consumed in rough work, drafts, calculations, temporary notes, etc. For such use slates afford a suitable substitute for paper. The Comptroller and the Chief Engineer may examine the question of supplying slates to officials of their departments out of contingencies so that the use paper for rough work may be avoided.

6. Instead of cutting stencils for all jobs of which 100 or more copies are required, such jobs should be sent in advance during office hours allowing at least 48 hours' time to enable Government Presses to make necessary arrangements for printing and delivery within the time required

7. *Post-copies of telegrams.*—The sending of post-copies of telegrams as a matter of course should be discontinued. The officer should decide in each case whether a post-copy is necessary. Numbers and quantities are less liable to mutilation if transmitted in words and not figures. Great accuracy can be secured by repeating the pivotal word, *e.g.*, "classification not repeat not possible" or adding the double of a number, *e.g.*, "send twenty-three, half of forty-six motors."

8. *Preparation of monthly statements of paper consumption.*—To watch the office consumption of paper a monthly statement giving figures of different varieties of paper used during the previous months may be prepared by each office. The Officer-in-charge of Stationery articles should carefully scrutinise the statement and ascertain whether all possible efforts are being made to minimise consumption and if not, take steps to ensure that greater economy is exercised. As such statements are intended to exercise control within the department or office itself.

9. All indents for paper or items manufactured from paper should be carefully scrutinised by an officer not below the rank of a Gazetted Officer Superintendents or managers of Offices should be responsible for the economic use of all stocks at present held.

10. (*a*) No drafts need be put up for acknowledgments pure and simple, but when such an acknowledgment has been

issued, a suitable red ink entry should be made in the appropriate place in the notes.

(b) When a single document is being forwarded by endorsement, the endorsement should, whenever space permits be typed on the document itself, either at the end of the main text or on the reverse.

(c) Brief notes (such as "For information," "May be added to the main file", "No action is necessary, as the reply has already been issued," etc.) should be written on the receipt itself not on a separate note sheet. This applies particularly to Administration Report, Remainders and the like.

(d) "P. U. D.", "D. F. A." and other such slips should not be thrown away after they have been used once or twice, but should be used repeatedly until they become unserviceable.

(e) New files should not be opened unnecessarily for instance, all circulars on the same subject, though of different years, may be placed in the same file.

II. Babul and Cactus thorns.—As the cost of pins is exorbitant, Cactus thorns as already recommended in Government Order No. M. 2500-68—P. & S. 90-43 4, dated the 22nd September 1944, may be used instead of pins. They may be purchased locally if available or from the following firms :—

1. Sri Thanthoni, Co., Army Contractors, 328, Thambu Chetty Street, G. T. Madras.	Rate per 1000 is Re. 0-14-0.
2. Messrs Rama & Co., Merchants, Contractors and Commission Agents, Dikshita Street, Fort, Trivandrum (South India)	Rate per 1000 is Re. 0-12-0 (postage extra).

Government further consider that it is quite necessary that some kind of continuous supervision should be maintained over the work of bigger offices so that the prescriptions of the various Economy Orders may be strictly enforced. The Special Accounts Officer of the Government Press Committee (who is now a gazetted officer of the status of an Assistant Comptroller) in addition to his duties of the Press Committee is authorised to inspect the offices with a view to see how far the Economy Orders are being observed and to bring flagrant cases of violation to the notice of Government.

MISCELLANEOUS DEPARTMENT

OFFICE OF THE COMMISSIONER OF INCOME-TAX IN MYSORE, BANGALORE.

Circular No. 91.

Notification dated 11th July 1945.

No. D1. Dis. 2—45-46. The following instructions are issued for the recovery of income-tax at source under sub-section (2) of Section 18 of the Mysore Income-tax Act, which lays down that "Any person responsible for paying an income chargeable under the head "Salaries" shall at the time of payment deduct income-tax at a rate representing the average rate applicable to the estimated income of the assessee under this head."

The total income of a salary-holder shall be deemed to be reduced for the purpose of income-tax by such an amount of the earned income included in the total income as is equal to one-tenth of such income but not exceeding in any case two thousand rupees (*vide* new Section 15 A of the Mysore Income-tax Act.) Under this no tax need be deducted from salaries of persons getting Rs. 2,667 per annum or Rs. 222-4-0 per mensem.

The following are the rates of income-tax for the current year as per Mysore Income-tax (Amendment) Act 1945:—

		Rs.		Rate
1	On the first	1,500	of total income	Nil
2	On the next	3,500	do	5 pies in the rupee.
3	Do	5,000	do	9 pies do
4	Do	10,000	do	15 pies do
5	Do	20,000	do	24 pies do
6	Do	20,000	do	36 pies do
7	On the balance of total income			42 pies do

These rates are subjected to the provision that the income tax payable shall in no case exceed half the amount by which the total income exceeds Rs. 2,400.

For example, A gets a salary of Rs. 2,700. The total income is reduced by 1/10th on account of earned income allowance. The income-tax payable will thus be on Rs. 2,700 less Rs. 270, *i.e.*, on Rs. 2,430. The tax on Rs. 2,430 amounts to Rs. 15 calculated as follows :—

	Rs.		Rs. a.
On the first	1,500	...	Nil
On the next	930 the tax at 5 pies	...	24 4
Total income	2,430		24 4

but the tax is limited to Rs. 15 (half the excess of the income over Rs. 2,400). The amount of tax to be deducted each month is Rs. 1-4-0.

For an income of Rs. 24,000 the calculations are as follows :—

The total income after deducting earned income allowance will be Rs. 22,000 (as the maximum allowed is limited to Rs. 2,000).

		Rs.		Rs. a. p.
On the first	...	1,500		Nil
On the next	...	3,500 at 5 pies in the rupee		91 2 0
Do	...	5,000 at 9 pies	do	234 6 0
Do	...	10,000 at 15 pies	do	781 4 0
Do	...	2,000 at 24 pies	do	250 0 0

The monthly salary is Rs. 2,000 and the amount of tax to be deducted each month is 1/12th of Rs. 1,356-12-0 which is Rs. 113-1-0.

The average rate of income-tax per rupee of income in the above example comes to Rs. 1,356-12-0/22,000 or 10·841 pies. This is the rate at which rebate for Life Insurance or Provident Fund payments, etc., is to be allowed, whether the rebate is given each month or wholly from one deduction or by refund at the end of the year. The average rate of income-tax on the whole income determines the rate at which refund or rebate is to be given on dividends or interest on securities, the rebate being given at the difference between the average rate at which tax has been suffered or the maximum rate and the average rate applicable to the assessee.

OFFICE OF THE CONTROLLER. CIVIL SUPPLIES AND ADDITIONAL TEXTILE COMMISSIONER IN MYSORE, BANGALORE.

(DEPARTMENT OF CIVIL SUPPLIES)

Notification dated 24th July—3rd August 1945.

No. T4.-1081. With a view to prevent excessive purchases of cloth by individuals on the one hand and indiscriminate sales by retailers on the other, it is considered necessary to regulate the sales by retailers with due reference to the average *per capita* sales of cloth in Bangalore City and the limited supplies of mill cloth now available for distribution. In exercise of the powers conferred upon me by clause 12-B of the Cotton Cloth and Yarn (Control) Order, 1943, I hereby direct the retailers of Bangalore City to make sales of cloth to consumers only against production of cloth coupons issued by the Department of Civil Supplies. While the cloth coupons fix only the limit upto which purchases can be made by a consumer the retailers are, generally, to see that sales of cloth are made in accordance with the quantities usually consumed within this limit by the purchasers on an average during the previous years and not in excessive quantities. In the case of Mills, Factories and other large employers of labour where recognised arrangements have existed for issuing cloth to their employees according to definite scales, the limit of quantity *per capita* admissible under the cloth coupons will not be applicable and in such cases, employers and dealers may continue to make issues of cloth to the employees on the same basis as has been adopted hitherto during the previous years.

"NOTE.—Note on the procurement of gram and pulses from the Central Provinces and Berar by Provinces and States having an import quota under the Central Government's Basic Plans.

Under the system set up by the Central Provinces and Berar Government, any licenced dealer in the Province holding surplus stocks of gram and/or pulses of any kind is free to sell them to any authorised nominee of the Government of a Province or State having an import quota of the commodity, under the basic plan concerning it. Recipient administrations are requested to furnish us with lists of their authorised nominees and to communicate to us from time to time such changes as are made in them. Full details such as the commodity which a nominee is authorised to handle and the limit, if any, set to his purchases would also be useful.

centres of supply of the particular commodity or commodities, which he has been authorised to handle. When a bargain is struct to the satisfaction of both the buyer and the seller, an export permit is granted in favour of the seller, provided the price agreed upon does not exceed the ceiling fixed by this Government. A statement is enclosed showing the ceilings at present in force. These are for bagged grain f. o. r. despatching station anywhere in the Province.

DEPARTMENT OF PUBLIC INSTRUCTION

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION IN MYSORE, BANGALORE.

Mysore Public Examinations.

Notification dated 4th August 1945.

No. D 10—45-6. A statement showing the latest dates for sending in applications for the several Public Examinations of 1946, appended hereto, is notified for general information. Special attention is invited to the following points:—

1. Applications for admission to the examinations should be submitted on printed forms which will be supplied on application to the Secretary, Secondary Education Board, New Public Offices, Bangalore, after the 15th September 1945. All requisitions for forms should reach the Secretary, *at least a fortnight before* the latest date prescribed for sending in applications for admission to the examinations. The Secretary will not be responsible for non-receipt of forms owing to the requisitions being sent too late or, to miscarriage of letters in post, the address being incorrect or incomplete and such other reasons.

2. Fees as shown in column No. 2 of the statement against the particular examination to which the candidates seek admission should be credited into a Mysore Government treasury in time for sending in the applications **by Registered Post** so as to reach the Secretary, Secondary Education Board, on or before the date mentioned in Column 1, after which date *no applications will be received for that particular examination.*

NOTE.—Late applications for admission to the several Public Examinations conducted by the Department will be entertained up to 15 (fifteen) days from the dates prescribed for submitting applications for the several examinations on payments of a penal fee of one rupee in respect of each such application. The amount should be credited to a Government Treasury and the receipt obtained thereof sent along with the application form. No application will be entertained under any circumstances 15 days after the date fixed for a Public Examination.

3. *Fees sent in cash, in any form will not be accepted.* Candidates living outside the State should make their own arrangements for paying application fees for the examination into a Mysore Government Treasury and send the printed application form with the Treasury receipt and seal, thereon on or before the specified date.

4. All columns in the form of application should be carefully and accurately filled in. The enclosures mentioned in column No. 3 in the statement should invariably be attached to the application for admission to the examination. Applications found *defective in any respect* will de rejected and returned to the party and *requests for refund of fees on the ground that the applications were rejected will not be entertained.*

5. Boy candidates will not be admitted to the Mysore Middle School Examination by *private study* unless they send with their application forms sufficient proof to show that they had sat for the English Lower Secondary or Middle School Examination (with English as First Language) in 1945 or earlier and had failed at the examination or unless they are specially permitted by the President, Secondary Education Board, in which latter case, the original communication granting permission should be attached to their applications for admission to the examination. Teachers in recognised schools and girl candidates may, however, appear for the examination by private study without obtaining previous permission as referred to above.

6. The printed column in the application form for non-attendance certificate in the case of private candidates for S.S.L.C., Middle School and Upper Primary Examinations of 1946, Should be filled in before the form of application is sent to the Secretary, Secondary Education Board. The officers, who sign the certificates of non-attendance are requested to satisfy themselves that the candidate is a *bona fide* private candidate and they should ensure themselves that no scope for irregularity of any kind is allowed in this respect.

7. (i) Applications for transfer of centres, if any, in respect of the Middle School or Upper Primary Examination, should ordinarily reach the Secretary, Secondary Education Board, New Public Offices, Bangalore, on or before the 31st January preceding the examination, with sufficient and valid reasons.

(ii) A fee of Re. 1 will be levied in respect of each such application submitted for good reasons, between the 1st and 10th February preceding the examination. Each application for change of centre submitted during this period should be accompanied by a treasury receipt for Re. 1. No change of centre will be granted *under any circumstances after the 10th February preceding the Examination.*

(iii) Applications for change of centres in the case of school candidates should be submitted through the Heads of Middle or Upper Primary Schools and in the case of private candidates through their parents or guardians.

(iv) Applications for a change of centre should contain information on the points noted below:—

(1) The centre originally selected by the candidate.
(2) The centre to which his name is required to be transferred.
(3) Whether the change of centre applied for is for the Middle School Examination or for the Upper Primary Examination or for any other Examination.
(4) Reasons urged for the transfer supported by the parent or guardian of the pupil.

NOTE.—(1) The Secretary, Secondary Education Board, Bangalore, may refuse to change the centre of examination if proper reasons in support of the change asked for are not furnished.

(2) The fee paid for change of centre will neither be refunded nor reserved for a subsequent examination, if the change has been refused for want of proper reasons in support of the change asked for.

8. The fees once paid into the Treasury for admission to any Public Examination shall, on no account, be refunded, but may be reserved for the same examination in the following year, if the candidate was unable to sit for the examination on account of illness, this should be supported by a Medical Certificate from a competent authority not lower in rank than a District Medical Officer or from a Medical Graduate countersigned by the District Medical Officer, and the application for such reservation should be sent so as to reach the Secretary, Mysore Secondary Education Board, Bangalore, on or before the date of the commencement of the Examination for which the fees have been paid.

9. The Heads of Institutions sending up candidates for the Middle School or the Upper Primary Examination of 1946 are requested to send the applications arranged according to the instructions given in the statement sent along with the application forms.

10. A consolidated list of candidates, who are deficient in attendance calculated up to the end of February 1945, should be sent in the prescribed form, which will be supplied along with the application forms so as to reach the Secretary, Secondary Education Board, Bangalore, *not later than the* 5th March 1946. The attention of the heads of Institutions is invited to Director of Public Instruction's Circular No. 1 of 1940-41—Edn. 64-3 of 1940-41, dated 11th July 1940, laying down rules regarding the cases to be recommended for exemption.

11. It is of utmost importance that the heads of schools should not only advise the candidates to give their correct date of birth, *i.e.*, day, month and year but also reconcile the dates given in the application form with those entered in the Admission Register of the School. The candidates should be made to give only the father's name (whether living or not), and not the guardian's name.

12. The Heads of High Schools sending up candidates for the S.S.L.C. Public Examination will kindly note the following points in connection with the preparation and submission of applications for candidature:—

(*a*) Candidates should be asked to give their *correct* date of birth, *viz.*, the day, month and year in the form of application *as entered in the form of application for admission to the school and in the Admission Register* of the School without giving room for unnecessary correspondence in the matter. They should be advised to enter *only the father's name (whether living or not)* in the form of application and not the guardian's name.

(*b*) The Heads of Institutions should satisfy themselves that the entries in the S. S. L. C. card correspond with those in the form of application for admission to the examination in every respect and that the date of birth entered in the S. S. L. C. card corresponds with that in the admission register of the school.

(*c*) The Heads of High Schools should arrange the applications and the S. S. L. C. cards separately in the same order, *i.e.*, firstly, according to the second language chosen by them and secondly, in the alphabetical order under the several second languages. In no case should the application forms and the S. S. L. C. cards be mixed up, as this will lead to confusion while checking the applications. The applications and S.S.L.C. cards of candidates who have been declared "Passed" in previous years should be separated from others and arranged in the same manner as stated above.

(*d*) The Heads of High Schools should also furnish a separate certificate to the effect that all the entries in the form of application and the S. S. L. C. card agree with those made in the admission register of the schools.

(e) A classified statement showing the names of candidates under "Ordinary" and "Supplementary" Certificates, the several second languages and optional subjects offered by them should accompany the applications for candidature.

13. The admission tickets of candidates who appear for the several Examinations of 1946 by *private study* will be sent direct to the candidates concerned by ordinary post to the addresses furnished by them in their application for admission to the examination about 15 days prior to the date of the commencement of the examination to which the particular candidate has appeared. Private candidates are therefore advised to enter their postal address clearly in their application forms. *The Examination Office cannot undertake to note the changes in the address intimated after the applications are sent in* and it will not be responsible for non-delivery of admission tickets, etc., sent to the candidates concerned in consequence of the incompleteness or inaccuracy or change of the postal addresses furnished by them.

14. Applications for the Teachers' Certificate Examination—Secondary Grade—(Theory) from private candidates will not be accepted unless they had appeared for the examination and failed at least once. But teachers in recognised schools who have put in 5 years' service or more and who had no chance of being deputed for training by the department may be admitted to the examination by private study, subject to the condition that they possess the minimum general qualifications prescribed for the examination provided that applications for admission to the examination are accompanied by certificates issued by the Inspecting Officer in direct charge of the school to the effect that the teacher possesses the minimum general educational qualification prescribed therefor, that he has put in 5 years' approved service in a recognised school, that he has been adopting approved methods of teaching in the school and that he is fit to take the examination by private study.

15. The admission of candidates to the Vernacular Teachers' Certificate Examination by private study is regulated as hereunder :—

(a) *First Examination*—

(1) Persons who had sat for the Lower Secondary Training Examination (one year or two years course) under the old rules and failed therein.

(2) Persons who had sat for the Upper Secondary Examination under the old rules and failed in one or both the groups.

(b) *Second Examination*—

(1) Persons who have passed the Upper Secondary or S. S. L. C. Examination.

(2) Persons who had appeared for the first examination by private study and passed therein.

16. It should be clearly understood that the provisions in this notification do not in any sense supersede the detailed notifications relating to the several examinations and that the provisions in the detailed notifications should be fully satisfied before any candidate is registered for the examination to which he seeks admission.

Notification dated 24—26th August 1945.

MYSORE MANURE DEALERS' LICENSING ORDER, 1944.

No. 9. The licensed dealers and consumers of groundnut oilcake have represented that the rates charged by the oil-millers and other dealers as charges for powdering groundnut oilcake are not uniform, have been increased recently and in many cases are found to be much more than the rates that can be reasonably charged. The subject was considered by the Advisory Committee constituted under the Manure Dealers' Licensing Order and the costs of powdering groundnut oilcake and other relevent matters relating to the process were reviewed in detail and the Committee has resolved that the powdering charges be allowed specifically at not exceeding a rate of Rs. 6 per ton of groundnut oilcake powder, and that this ceiling rate is found to be quite fair and reasonable having regard to all factors, such as increase in cost of labour charges, etc., involved.

In exercise therefore of the powers conferred upon me under condition 9 of the conditions of licence issued by me under clause 6 of the Mysore Manure Dealers' Licensing Order, 1944, I, hereby direct that with effect from the date of this Notification a rate exceeding Rs. 6 per ton of groundnut oil-cake powder shall not be charged by any licensed dealer or oil-miller as powdering charges and the actual powdering charges claimed from purchasers within the abovementioned ceiling rate, should be separately specified in every bill issued by the abovesaid dealers for sale of groundnut oil cake. Where any infringements of these terms are noticed, severe notice is liable to be taken in accordance with the licence conditions.

OFFICE OF THE CONTROLLER OF CIVIL SUPPLIES IN MYSORE, BANGALORE.

Notification dated 24—26th August 1945.

MYSORE MANURE DEALERS' LICENSING ORDER, 1944.

No. 9. The licensed dealers and consumers of groundnut oilcake have represented that the rates charged by the oil-millers and other dealers as charges for powdering groundnut oilcake are not uniform, have been increased recently and in many cases are found to be much more than the rates that can be reasonably charged. The subject was considered by the Advisory Committee constituted under the Manure Dealers' Licensing Order and the costs of powdering groundnut oilcake and other relevent matters relating to the process were reviewed in detail and the Committee has resolved that the powdering charges be allowed specifically at not exceeding a rate of Rs. 6 per ton of groundnut oilcake powder, and that this ceiling rate is found to be quite fair and reasonable having regard to all factors, such as increase in cost of labour charges, etc., involved.

In exercise therefore of the powers conferred upon me under condition 9 of the conditions of licence issued by me under clause 6 of the Mysore Manure Dealers' Licensing Order, 1944, I, hereby direct that with effect from the date of this Notification a rate exceeding Rs. 6 per ton of groundnut oilcake powder shall not be charged by any licensed dealer or oil-miller as powdering charges and the actual powdering charges claimed from purchasers within the abovementioned ceiling rate, should be separately specified in every bill issued by the abovesaid dealers for sale of groundnut oil cake. Where any infringements of these terms are noticed, severe notice is liable to be taken in accordance with the licence conditions.

FINANCIAL DEPARTMENT

COMPTROLLER'S OFFICE, BANGALORE.

Notification, dated 8th October 1945.

To

All the Treasury Officers.

Subject :—Remittances into Treasuries relating to Electrical Departmental Revenue.

Circular No. 157—Bii. It has been brought to the notice of this office that in spite of instructions issued in this office Circular No. 860—Bii, dated 6th June 1942, there are still a number of instances wherein some of the Treasuries remittances towards Electrical Departmental Revenue are being allowed to be made by certain officers directly into the Treasuries instead of through the Departmental Power and Lighting Office as required in the above circular. This deviation from the prescribed procedure has resulted in differences between the Treasury and Departmental figures involving a lot of avoidable correspondence and delay in reconciliation and adjustment of these differences. The Treasury Officers are therefore again instructed not to accept such remittances in future and direct the parties concerned to arrange for the same through the departmental Power and Lighting Offices only, as a rule.

FINANCIAL DEPARTMENT

COMPTROLLER'S OFFICE, BANGALORE.

Circular dated 22nd October 1945.

To

All the Amildars, and Taluk Treasury Officers.

Subject :—Alteration in the date fixed for the disbursement of pay to primary school teachers.

No. 191—TAD. B. II. According to the existing procedure, the Amildars who are the Disbursing Officers should cash the bills for pay, grants and T. A. of all employees in Primary Schools at the Treasury and arrange to make disbursement to the teachers of schools at a distance of less than 5 miles from the Treasury, not later than the second Saturday in the month (giving them previous intimation of change of date fixed for such payment, if and when necessary) and remit on the day on which the bill is cashed by money orders the amounts due to the teachers residing beyond that distance.

2. The Director of Public Instruction states that representations are being received for the disbursement of the pay of the Primary School Teachers much earlier, (namely, on the 5th of every month as provided for in G. O. No. 8529-39—Edn. 33-18-3, dated 8th March 1919) owing to the hard conditions of the teachers. As the pay of the teachers of schools situated 5 miles or more from the Treasury is now remitted by money order the number of persons coming to the Treasury for payment is smaller than heretofore and the Treasury work in respect of personal payments to teachers is thus reduced. Further, as the countersignature of the pay bills of the Primary School teachers by the Elementary Education Officers has since been dispensed with, the Assistant Inspectors of Education can send the bills much earlier than before allowing sufficient time for the Treasury to scrutinise them.

3. In the above circumstances, the Amildars are requested to cash the salary bills of Primary School teachers and arrange for the disbursement of pay to the teachers on the 5th of every month (or on the next working day, if that day happens to be a holiday), the money orders for teachers of schools situated at a distance of 5 miles or more being sent on the same pay. The Assistant Inspectors of Education have already been instructed by the Director to send the bills to the Treasury not later than the 2nd of every month and to close the schools on the 5th of every month (or on the next working day if that day happens to be a holiday) to enable the teachers to receive their pay and also to hold and attend the Teachers' Association Meetings on that day.

FINANCIAL DEPARTMENT

COMPTROLLER'S OFFICE, BANGALORE.

Notification, dated 8th October 1945.

To

All the Treasury Officers.

Subject:—Remittances into Treasuries relating to Electrical Departmental Revenue.

Circular No. 157—Bii. It has been brought to the notice of this office that in spite of instructions issued in this office Circular No. 860—Bii, dated 6th June 1942, there are still a number of instances wherein some of the Treasuries remittances towards Electrical Departmental Revenue are being allowed to be made by certain officers directly into the Treasuries instead of through the Departmental Power and Lighting Office as required in the above circular. This deviation from the prescribed procedure has resulted in differences between the Treasury and Departmental figures involving a lot of

avoidable correspondence and delay in reconciliation and adjustment of these differences. The Treasury Officers are therefore again instructed not to accept such remittances in future and direct the parties concerned to arrange for the same through the departmental Power and Lighting Offices only, as a rule.

2305

Notification dated 18th October 1945.

The Deputy Commissioner,
Treasury Department,
.....District.

Sir,

To continue the issue of F. D. Receipts for Sports and Reading Room Funds of Educational Institutions.

No. 93—S. B. I have the honour to state that Government in their order No. Fl. 2006-7—G. F. 111-45-2, dated 28th September 1945 (copy enclosed) have permitted as a special case to issue Five years Fixed Deposit Receipts at 2 per cent interest per annum for accumulated balances of the sports and reading room funds of Educational Institutions. The Treasuries are accordingly directed to issue the receipts and maintain accounts as usual.

I have the honour to be,
Sir,
Your most obedient servant,
M. SHAMANNA, *Comptroller.*

2573

Circular dated 22nd October 1945.

To

All the Amildars and Taluk Treasury Officers.

Subject :—Alteration in the date fixed for the disbursement of pay to primary school teachers.

No. 191—TAD. B. II. According to the existing procedure, the Amildars who are the Disbursing Officers should cash the bills for pay, grants and T. A. of all employees in Primary Schools at the Treasury and arrange to make disbursement to the teachers of schools at a distance of less than 5 miles from the Treasury, not later than the second Saturday in the month (giving them previous intimation of change of date fixed for such payment, if and when necessary) and remit on the day on which the bill is cashed by money orders the amounts due to the teachers residing beyond that distance.

2. The Director of Public Instruction states that representations are being received for the disbursement of the pay of the Primary School Teachers much earlier, (namely, on the 5th of every month as provided for in G. O. No. 8529-39—Edn. 33-18-3, dated 8th March 1919) owing to the hard conditions of the teachers. As the pay of the teachers of schools situated 5 miles or more from the Treasury is now remitted by money order the number of persons coming to the Treasury for payment is smaller than heretofore and the Treasury work in respect of personal payments to teachers is thus reduced. Further, as the countersignature of the pay bills of the Primary School teachers by the Elementary Education Officers has since been dispensed with, the Assistant Inspectors of Education can send the bills much earlier than before allowing sufficient time for the Treasury to scrutinise them.

3. In the above circumstances, the Amildars are requested to cash the salary bills of Primary School teachers and arrange for the disbursement of pay to the teachers on the 5th of every month (or on the next working day, if that day happens to be a holiday), the money orders for teachers of schools situated at a distance of 5 miles or more being sent on the same pay. The Assistant Inspectors of Education have already been instructed by the Director to send the bills to the Treasury not later than the 2nd of every month and to close the schools on the 5th of every month (or on the next working day if that day happens to be a holiday) to enable the teachers to receive their pay and also to hold and attend the Teachers' Association Meetings on that day.

Letter No. 181 dated 21st September 1945, from the Superintendent of Stamps in Mysore, Bangalore, to the President, Town Municipal Council, Mysore.

Notification dated 27th October 1945.

With reference to your letter No. M. 10-10—45-46, dated forwarding 150 M. A. M. Receipt Books and a treasury chellan of having credited Rs. 625, being the stamp duty chargeable for impressing the receipt books with receip stamps, I have the honour to state that the Superintendent Stamp Manufactory, to whom the books were sent fo embossing, has returned the books on 17th Septembe 1945, stating that the embossing press will not permi the stamping on documents *in book form* especiall when these books are so tiny. He, however, suggest that the books containing foils and counterfoils receive for impressing stamp duty may be sent in loose leave or sent after the originals in those books have been carefull folded (to avoid faulty stamping of the originals) leaving th duplicates alone to be stamped. The Receipt Books are therefore, returned by separate parcel and I request that th folding of originals may kindly be got done or loose forms ma be sent when embossing will be undertaken. I also reques that they may be sent in small bundles of three or four instal ments to facilitate early compliance of the stamping work.

No. 191. Copy of the above is submitted to the Comprolle to Government of Mysore, Bangalore, for kin information. When the M. A. M. Receipt Books are sent in future on behal of Municipalities or District Boards, they may be advised to send the books in loose forms or to fold the originals if duplicates are to be stamped in those books to avoid faulty impression to the originals at the time of stamping.

Circular No. 152.

The following Rule 18 of the Pubic Branch regarding Automatic Non-forfeiture as amended in Government Order No. Fl. 723—G. F.17-45-2 dated 10th August 1945, is published for general information. This rule has been given effect to from 11th September 1942 and does not apply to cases coming under Rule 16 Para (2).

A policy which has been in force for not less than two years shall not lapse by reason of non-payment of further premium, but shall be kept in force in the manner and subject to the provisions set forth below :—

The net cash surrender value of the policy available as on the due date of the first unpaid premium or instalment, after deduction of any loan granted on the policy and interest outstanding thereon, will be automatically applied to maintain the policy in force for such period as the said net cash surrender value is sufficient to cover the overdue premia or instalments thereof with interest thereon at 6¼ per cent per annum compounded half yearly. The minimum period for which premium will be so advanced is one quarter. The department shall have a first charge on the policy for the premia advanced with interest thereon calculated in the above manner. In case the policy becomes a claim while it is maintained in force under this rule, such claim shall be considered valid subject to the deduction from the sum assured of the arrear premia with interest as above and the outstanding policy loan, if any, with interest thereon.

The insured has the option at any time during the operation of the non-forfeiture regulation to pay up the amount

advanced with interest thereon without evidence of health or to pay one or more of the unpaid premiums and thus further extend the period for which the policy could be kept in force. If it is not so repaid, the policy will cease and all liability of the Department thereunder will terminate, except to the extent of any balance of surrender value left in favour of the party on the date of termination after adjustment of all unpaid premiums with interest and other amounts due to the office. The policy may, however, be revived at any time during the life time of the insured under the provisions of Rule 19.

FINANCIAL DEPARTMENT

COMPTROLLER'S OFFICE, BANGALORE.

Notification, dated 8th October 1945.

To

All the Treasury Officers.

Subject :—Remittances into Treasuries relating to Electrical Departmental Revenue.

Circular No. 157—Bii. It has been brought to the notice of this office that in spite of instructions issued in this office Circular No. 860—Bii, dated 6th June 1942, there are still a number of instances wherein some of the Treasuries remittances towards Electrical Departmental Revenue are being allowed to be made by certain officers directly into the Treasuries instead of through the Departmental Power and Lighting Office as required in the above circular. This deviation from the prescribed procedure has resulted in differences between the Treasury and Departmental figures involving a lot of avoidable correspondence and delay in reconciliation and adjustment of these differences. The Treasury Officers are therefore again instructed not to accept such remittances in future and direct the parties concerned to arrange for the same through the departmental Power and Lighting Offices only, as a rule.

2305

Notification dated 18th October 1945.

The Deputy Commissioner,

Treasury Department,

.....District.

Sir,

To continue the issue of F. D. Receipts for Sports and Reading Room Funds of Educational Institutions.

No. 93—S. B. I have the honour to state that Government in their order No. Fl. 2006-7—G. F. 111-45-2, dated 28th September 1945 (copy enclosed) have permitted as a special case to issue Five years Fixed Deposit Receipts at 2 per cent interest per annum for accumulated balances of the sports and reading room funds of Educational Institutions. The Treasuries are accordingly directed to issue the receipts and maintain accounts as usual.

I have the honour to be,

Sir

Your most obedient servant,

2573 M. SHAMANNA, *Comptroller.*

Circular dated 22nd October 1945.

To

All the Amildars and Taluk Treasury Officers.

Subject :—Alteration in the date fixed for the disbursement of pay to primary school teachers.

No. 191—TAD. B. II. According to the existing procedure, the Amildars who are the Disbursing Officers should cash the bills for pay, grants and T. A. of all employees in Primary Schools at the Treasury and arrange to make disbursement to the teachers of schools at a distance of less than 5 miles from the Treasury, not later than the second Saturday in the month (giving them previous intimation of change of date fixed for such payment, if and when necessary) and remit on the day on which the bill is cashed by money orders the amounts due to the teachers residing beyond that distance.

2. The Director of Public Instruction states that representations are being received for the disbursement of the pay of the Primary School Teachers much earlier, (namely, on the 5th of every month as provided for in G. O. No. 8529-39—Edn. 33-18-3, dated 8th March 1919) owing to the hard conditions of the teachers. As the pay of the teachers of schools situated 5 miles or more from the Treasury is now remitted by money order the number of persons coming to the Treasury for payment is smaller than heretofore and the Treasury work in respect of personal payments to teachers is thus reduced. Further, as the countersignature of the pay bills of the Primary School teachers by the Elementary Education Officers has since been dispensed with, the Assistant Inspectors of Education can send the bills much earlier than before allowing sufficient time for the Treasury to scrutinise them.

3. In the above circumstances, the Amildars are requested to cash the salary bills of Primary School teachers and arrange for the disbursement of pay to the teachers on the 5th of every month (or on the next working day, if that day happens to be a holiday), the money orders for teachers of schools situated at a distance of 5 miles or more being sent on the same pay. The Assistant Inspectors of Education have already been instructed by the Director to send the bills to the Treasury not later than the 2nd of every month and to close the schools on the 5th of every month (or on the next working day if that day happens to be a holiday) to enable the teachers to receive their pay and also to hold and attend the Teachers' Association Meetings on that day.

Letter No. 181 dated 21st September 1945, from the Superintendent of Stamps in Mysore, Bangalore, to the President, Town Municipal Council, Mysore.

Notification dated 27th October 1945.

With reference to your letter No. M. 10-10—45-46, dated forwarding 150 M. A. M. Receipt Books and a treasury chellan of having credited Rs. 625, being the stamp duty chargeable for impressing the receipt books with receipt stamps, I have the honour to state that the Superintendent, Stamp Manufactory, to whom the books were sent for embossing, has returned the books on 17th September 1945, stating that the embossing press will not permit the stamping on documents *in book form* especially when these books are so tiny. He, however, suggests that the books containing foils and counterfoils received for impressing stamp duty may be sent in loose leaves or sent after the originals in those books have been carefully folded (to avoid faulty stamping of the originals) leaving the duplicates alone to be stamped. The Receipt Books are, therefore, returned by separate parcel and I request that the folding of originals may kindly be got done or loose forms may be sent when embossing will be undertaken. I also request that they may be sent in small bundles of three or four instalments to facilitate early compliance of the stamping work.

No. 191. Copy of the above is submitted to the Comproller to Government of Mysore, Bangalore, for kin information. When the M. A. M. Receipt Books are sent in future on behalf of Municipalities or District Boards, they may be advised to send the books in loose forms or to fold the originals if duplicates are to be stamped in those books to avoid faulty impression to the originals at the time of stamping.

Letter No. 181 dated 21st September 1945, from the Superintendent of Stamps in Mysore, Bangalore, to the President, Town Municipal Council, Mysore.

Notification dated 27th October 1945.

With reference to your letter No. M. 10-10—45-46, dated forwarding 150 M. A. M. Receipt Books and a treasury chellan of having credited Rs. 625, being the stamp duty chargeable for impressing the receipt books with receipt stamps, I have the honour to state that the Superintendent, Stamp Manufactory, to whom the books were sent for embossing, has returned the books on 17th September 1945, stating that the embossing press will not permit the stamping on documents *in book form* especially when these books are so tiny. He, however, suggests that the books containing foils and counterfoils received for impressing stamp duty may be sent in loose leaves or sent after the originals in those books have been carefully folded (to avoid faulty stamping of the originals) leaving the duplicates alone to be stamped. The Receipt Books are, therefore, returned by separate parcel and I request that the folding of originals may kindly be got done or loose forms may be sent when embossing will be undertaken. I also request that they may be sent in small bundles of three or four instalments to facilitate early compliance of the stamping work.

No. 191. Copy of the above is submitted to the Comproller to Government of Mysore, Bangalore, for kin information. When the M. A. M. Receipt Books are sent in future on behalf of Municipalities or District Boards, they may be advised to send the books in loose forms or to fold the originals if duplicates are to be stamped in those books to avoid faulty impression to the originals at the time of stamping.

THE HINDU LAW REFORM COMMITTEE, MYSORE.

Questionnaire.

This Committee has been appointed by the Government to suggest suitable amendments to the various provisions of the Hindu Law Women's Rights Act, 1933, so as to resolve the difficulties felt in the interpretation of the existing provisions of the Act and to bring the law in consonance with the spirit of modern times.

The Hindu Law Women's Rights Act came into force in Mysore on the 1st of January 1934. During the 11 years that have since elapsed, several of its provisions have come up for interpretation before courts of law. Valuable suggestions have been made by the High Court in their judgments in cases that came up for decision under the Act. Several difficulties, which arise in the construction of the existing provisions of the Act have also been indicated by the High Court. During the past decade there has been considerable progress in social conditions that renders the amendment of the Act necessary so as to be in consonance with the progressive ideas of the present day. The functions of this Committee are therefore twofold :—

(1) to suggest suitable amendments so as to resolve the difficulties felt in the interpretation of the existing provisions of the Act and clarify the law contained therein ; and

(2) to keep the frame work of the Act as the basis and suggest such amendments to the provisions of the Act as may be necessary or desirable so as to bring the Act in consonance with the spirit of modern times.

In order to facilitate the enquiry and to give opportunity to all persons interested to place before the Committee their views on the several matters which will come up for consideration before the Committee as regards the second of the abovesaid functions, a set of questions has been prepared and is published for general information.

The memorandum appended to this questionnaire will indicate the purpose and the scope of the questions included herein.

The answers need not be limited to the precise points covered by these questions. The Committee will welcome any suggestions or expressions of opinion on matters not covered by this questionnaire, but which are within the scope of the enquiry.

It will be appreciated if answers are furnished as early as possible and in any case not later than 15th December 1945 to the address of the Secretary, Hindu Law Reform Committee in Mysore, Public Office Buildings, Bangalore. Copies of the questionnaire may also be obtained on application to that officer.

BANGALORE CITY,
1st November 1945.

S. VENKATARANGA IYENGAR,
Chairman.

Q.—**2.** If your answer to Question **1** is in the affirmative, who, in your opinion, should be the persons who should be given the right of such simultaneous succession ?

Q.—**3.** What, in your opinion, should be the shares that should be allowed to each of the persons whom you specify in reply to Question 2 ?

Q.—**4.** Are you in favour of providing for simultaneous succession of the grand-daughters of a male dying intestate irrespective of whether they are son's daughters or daughter's daughters ?

Q.—**5.** Are you in favour of placing son's daughters and daughter's daughters above the mother in the order of succession ?

PART III—Adoption.

Q.—**10.** Are you in favour of empowering the widow to make an adoption to her husband in the absence of an express prohibition in writing by him?

Q.—**11.** In cases where an adoption by a widow is valid, are you in favour of recognising the adopted son as an *aurasa* son for purposes of succession to property?

If you are not in favour of including all property of a female as her stridhana, are you at least agreeable to deleting the words—"except when there is a daughter or daughter's son of the propositus alive at the time the property is so inherited" in section 10 (2) (*g*) of the Act?

"for any other justifiable cause"?

PART VI—General.

Q.—**20.** Are you in favour of making the provisions of the Partition Act (III of 1913) applicable to all cases of division of property arising under this Act?

Q.—**21.** Are you in favour of a provision preserving to *Dasi Putra* whatever rights he has under the Hindu Law?

Q.—**22.** If you are not in favour of such a provision, are you in favour of stating that 'son' in the Act does not include a *Dasi Putra*?

Q.—**23.** Are you in favour of a provision that except in the case of an after-born son, an adopted son has the same rights under the Act as an *aurasa* son.

Q.—**24.** Are you in favour of the provision that, if, after adoption, a son is born to the adoptive father, the adopted son should have the same share in the adoptive father's property as a natural born son?

THE HINDU LAW REFORM COMMITTEE, MYSORE.

Questionnaire.

This Committee has been appointed by the Government to suggest suitable amendments to the various provisions of the Hindu Law Women's Rights Act, 1933, so as to resolve the difficulties felt in the interpretation of the existing provisions of the Act and to bring the law in consonance with the spirit of modern times.

The Hindu Law Women's Rights Act came into force in Mysore on the 1st of January 1934. During the 11 years that have since elapsed, several of its provisions have come up for interpretation before courts of law. Valuable suggestions have been made by the High Court in their judgments in cases that came up for decision under the Act. Several difficulties, which arise in the construction of the existing provisions of the Act have also been indicated by the High Court. During the past decade there has been considerable progress in social conditions that renders the amendment of the Act necessary so as to be in consonance with the progressive ideas of the present day. The functions of this Committee are therefore twofold :—

(1) to suggest suitable amendments so as to resolve the difficulties felt in the interpretation of the existing provisions of the Act and clarify the law contained therein ; and

(2) to keep the frame work of the Act as the basis and suggest such amendments to the provisions of the Act as may be necessary or desirable so as to bring the Act in consonance with the spirit of modern times.

In order to facilitate the enquiry and to give opportunity to all persons interested to place before the Committee their views on the several matters which will come up for consideration before the Committee as regards the second of the abovesaid functions, a set of questions has been prepared and is published for general information.

The memorandum appended to this questionnaire will indicate the purpose and the scope of the questions included herein.

The answers need not be limited to the precise points covered by these questions. The Committee will welcome any suggestions or expressions of opinion on matters not covered by this questionnaire, but which are within the scope of the enquiry.

It will be appreciated if answers are furnished as early as possible and in any case not later than 15th December 1945 to the address of the Secretary, Hindu Law Reform Committee in Mysore, Public Office Buildings, Bangalore. Copies of the questionnaire may also be obtained on application to that officer.

BANGALORE CITY,
1st November 1945.

S. VENKATARANGA IYENGAR,
Chairman.

(REFERENCES IN THESE QUESTIONS TO THE ACT AND SECTION SHOULD BE CONSTRUED AS REFERENCES TO THE HINDU LAW WOMEN'S RIGHTS ACT, 1933 AND TO SECTIONS OF THIS ACT RESPECTIVELY.)

PART I—Intestate Succession.

Q.—**1.** Are you in favour of providing that certain close relatives of the deceased like son, grandson whose father is dead, great grandson whose father and grandfather are both dead, widow, daughter or any other relative should be given the right to succeed simultaneously to the separate property of a Hindu male dying intestate ?

Q.—**2.** If your answer to Question 1 is in the affirmative, who, in your opinion, should be the persons who should be given the right of such simultaneous succession ?

Q.—**3.** What, in your opinion, should be the shares that should be allowed to each of the persons whom you specify in reply to Question 2 ?

Q.—**4.** Are you in favour of providing for simultaneous succession of the grand-daughters of a male dying intestate irrespective of whether they are son's daughters or daughter's daughters ?

Q.—**5.** Are you in favour of placing son's daughters and daughter's daughters above the mother in the order of succession ?

Q.—**6.** Are you in favour of providing that brother's daughters and sister's daughters should succeed simultaneously ?

PART II—Partition.

Q.—**8.** Are you in favour of giving women who are entitled to shares in joint family property under sub-section (1) of section 8 a right to demand partition?

Q.—**9.** If your answer is in the affirmative, would you prefer a provision being made to the effect that such a demand for partition or the separation of her share and placing it in her possession shall not disrupt the family and the family shall continue joint notwithstanding such partition or the separation of her share?

PART III—Adoption.

Q.—**10.** Are you in favour of empowering the widow to make an adoption to her husband in the absence of an express prohibition in writing by him?

Q.—**11.** In cases where an adoption by a widow is valid, are you in favour of recognising the adopted son as an *aurasa* son for purposes of succession to property?

Q.—**12.** If the answer to question 11 is in the affirmative, would you impose on the widow any time limit within which to make the adoption in order not to disturb successions which have already taken place?

PART IV—Stridhana.

Q.—**13.** Are you in favour of abolishing the notion of limited estate and including all property of a female as her stridhana? If you are not in favour of including all property of a female as her stridhana, are you at least agreeable to deleting the words—" except when there is a daughter or daughter's son of the propositus alive at the time the property is so inherited " in section 10 (2) (*g*) of the Act?

Q.—**14.** Are you in favour of having only one order of succession to Stridhana?

Q.—**15.** If so, what order would you suggest?

PART V—Maintenance.

Q.—**16.** Are you in favour of adding a widowed daughter-in-law in section 22 (1) of the Act as one of the persons whom a Hindu male is bound to maintain?

Q.—**17.** Are you in favour of giving a wife a right to refuse to live with her husband and claim separate maintenance in a case where the husband is a lunatic or an idiot?

Q.—**18.** Are you in favour of amending section 23 (*e*) of the Act so as to make it applicable to renouncement by a husband of his religion, whatever it may be?

Q.—**19.** Are you in favour of adding one more clause to section 23 of the Act as follows:—

" for any other justifiable cause "?

PART VI—General.

Q.—**20.** Are you in favour of making the provisions of the Partition Act (III of 1913) applicable to all cases of division of property arising under this Act?

Q.—**21.** Are you in favour of a provision preserving to *Dasi Putra* whatever rights he has under the Hindu Law?

Q.—**22.** If you are not in favour of such a provision, are you in favour of stating that 'son' in the Act does not include a *Dasi Putra*?

Q.—**23.** Are you in favour of a provision that except in the case of an after-born son, an adopted son has the same rights under the Act as an *aurasa* son.

Q.—**24.** Are you in favour of the provision that, if, after adoption, a son is born to the adoptive father, the adopted son should have the same share in the adoptive father's property as a natural born son?

Fodder and water are available to the cattle throughout the district, but a little scarcity is being felt for fodder specially in some parts of Kadur and Tarikere Taluks.

CHITALDRUG.

8. Markets are fairly well supplied.

9. *Sowing* :—Sowing of Bilijola and Bengalgram in water-spread area of Vanivilasasagara of Hosadurga Taluk is reported to be in progress.

Standing Crops.—In Chitaldrug, Chellakere and Molakalmuru, Hiriyur, Jagalur and in half of Hosadurga Taluks, the dry crops are reported to be withering for want of rains. In Holalkere, Harihar, Davangere, and part of Hosadurga Taluk the standing crops are reported to be fair.

Harvest.—Groundnut in Chitaldrug Taluk; jola, ragi, navane, haraka and sajje in Holalkere, Hiriyur, Hosadurga and Davangere Taluks are reported to be being harvested.

10. Prospects of the season are reported to be fair. The cooly classes are finding sufficient labour all over the district. Relief works have been started in almost all the taluks.

11. Cattle are reported to be healthy throughout the district except for the prevalence of Blackquarter and epizootic pohta in some villages of Molakalmuru Taluk. Necessary preventive measures are reported to have been taken by the Veterinary Department to check the spread of the disease.

Water is available throughout the district. For fodder most of the State Forests have been thrown open for free grazing. Arrangements have been made to throw open the Amrit Mahal Kavâls also for free grazing.

LAW SECRETARIAT

Appoints a Committee to enquire and suggest amendment to the Act relating to Women's Rights in Hindu Law.

READ—

ORDER No. P. 298-311— Cts. 81-44-4, DATED BANGALORE, THE 11TH JULY 1945.

The question of improving the position assigned to women under the Hindu Law of Inheritance was the subject of examination by a Committee appointed in 1929. As a result of the recommendations made by this Committee, the Hindu Law Women's Rights Act, 1933, was passed. This Act has been in force for over twelve years and there is a growing demand for its revision. In December 1944, a resolution was passed by the Legislative Council urging upon the Government the need for the appointment of a Committee to examine, revise and amend the Hindu Law Women's Rights Act, 1933. The High Court, which was consulted in the matter, is of opinion that the appointment of such a Committee is urgently called for to revise the Act in the light of the decisions given by the High Court as well as to bring the law in consonance with the spirit of modern times.

Government agree that there is need for the appointment of such a Committee and they are accordingly pleased to appoint a Committee consisting of—

Mr. Justice S. Venkataranga Iyengar, B.A., LL.M.
Rajadharmapravina Diwan Bahadur Mr. P. Mahadevayya, B.A., B.L. (Retired Chief Justice), M. L. C.
Rajadharmaprasakta Mr. C. Subramanya Aiyar, B.A., B.L. (Retired Judge, High Court of Mysore).
Mr. M. P. Somasekhara Rau, B.A, LL.B., Advocate, Bangalore.
Mr. N. Balakrishnaiya, B.A., LL.B., Advocate, Bangalore.
Mr. R. Venkataramaiah, M.A., LL.B., District Judge.
Mr. H. Lingappa, B.A., LL.B., Advocate, Shimoga.
Mr. D. S. Mallappa, M.L.C., Merchant, Tiptur.
Mrs. Yesodhara Dasappa.
Mr. Hombe Gowda, B.Sc., LL.B., Public Prosecutor, Mandya.

Mr. Justice S. Venkataranga Iyengar will be the Chairman, Mr. G. S. Venkataramana Iyer, B.Sc., M.L., Assistant Secretary to Government, Legislation Branch, will work as Secretary to the Committee.

The Committee is requested to suggest suitable amendments to the various provisions of the Hindu Law Women's Rights Act, 1933, so as to resolve the difficulties felt in the interpretation of the existing provisions of the Act and to be in consonance with the spirit of modern times.

The Committee may call for information and opinions from Government Officers as well as from members of the Public and Public Bodies and to interview and examine witnesses.

All Officers of Government are requested to furnish the Committee with any information at their disposal on requisition from the Secretary to the Committee.

The Committee will meet at Bangalore and the Chairman and five members will constitute a quorum.

The Superintendent, Government Printing and Stationery, is requested to comply with all the requisitions from the Committee for printing and stationery.

ADDITIONAL SECRETARIAT

Reviews the Administration Report of the Sericultural Department for the year 1943-44.

READ—

Report on the working of the Sericultural Department during the year 1943-44 from the Special Officer received with his letter No. E. 823, dated 29th May 1945.

ORDER No. D. 261-330—SERI. 226-44-3, DATED 10TH JULY 1945.

Recorded.

2. *Market conditions of the Silk Industry.*—The price of standard quality cocoons, yielding a renditta of 18 to 1, was fixed at Re. 0-14-6 per lb. during June 1943. This price was revised from time to time on the basis of the cost of living index and it was raised to Rs. 1-1-0 during June 1944. Sixty-nine lakhs of lbs. of cocoons were purchased and sold in the cocoon markets of the State during the year. In addition to the 41 cocoon markets which functioned during the previous year, ten more markets were started during the year under report.

3. *Mulberry cultivation.*—The area under mulberry in the State rose to nearly 75,000 acres during the year.

The starting of a fully equipped sericultural farm and grainage at Dodballapur was sanctioned in March 1944.

4. *Research experiments and propaganda.*—The Harijan Sericultural Colonies at Chikkamannugudde, Channapatna Taluk, Alakere and Bilidevalaya, Kunigal Taluk, supplied good Mysore race seed cocoons.

Silk worm eggs of the univoltine races were reared, yielding good results.

A scheme for the expansion of Sericultural Industry in Honnali Taluk was sanctioned in October 1943.

A building for the silk conditioning and Testing House at Channapatna is under construction and part of the machinery has been received. Pending completion of the building, arrangements have been made for testing and grading of silk at the Silk Farm at Channapatna.

5. *Special features during the year.*—The scheme of filature expansion which was undertaken at the instance of the Government of India is making satisfactory progress.

In order to make the Cocoon Control Order of 1943 more effective, certain amendments were made in April 1944.

Measures to prevent unauthorised dealings in cocoons and silk were taken.

A new method of fixing renditta, which has been in vogue in all the cocoon markets, is being tried.

The Mysore Silk Control Order of 1943 was suitably amended in order to deal effectively with cases of unauthorised possession of silk.

A system of licensing weaving and throwing establishments was also introduced to check unauthorised possession of silk.

The surplus realised from the sale of silk in auctions under the provisions of the Silk Control Order is distributed equally among the rearers, reelers and a portion of it is also credited to the Silk Development Fund which is intended to be utilised for the future development of the industry in the State.

A separate police organisation for the prevention of black-market activity and of the smuggling of cocoons and silk under the Cocoon and Silk Control Orders, 1943, was sanctioned.
